iOS Application

Very little if any computations occur on the iOS client. It is mainly issuing and receiving RESTful API calls, and displaying the results. Most of the basic logic comes from the View Controllers (displaying table views, posting an API call, etc). The View Controllers are mainly using the built in Apple supplied methods, which will not be tested.

Class: MappingProvider – the controller that handles creating the models

+ (RKMapping *) kbUserMapping

Input: JSON of connected users

Output: array of User models

+ (RKMapping *) kbGroupsMapping

Input: JSON of groups

Output: array of Group models

+ (RKMapping *) kbSearchMapping

Input: JSON of search results

Output: array of user models matching search

+ (RKMapping *) kbNotificationMapping

Input: JSON of notifications

Output: array of notification models

Class: SettingsViewController

-signOut

Assert that the keychain entry for user has been deleted

Integration Testing

Integration testing will ensure communication between the client and backend function as expected. Below are integration tests in curl format. All expected responses are in JSON.

ID	IT1
Description	Search - Accepts strings, searches by individual words or in the usage of quotations around query, will search entire quotation in the case of a school or university. Returns array of USER_json of possible results. Max possible size of array is 50 users.

RESTFul Call	GET: search?query=john&20smith
Expected Response	<pre>{ "query":"string", "email":"string", "gender":'char', "phonenumner": { "number":"string", "extension":"string", "country_code":"string" }, "company":"string", "currentcity":"string", "firstname":"john", "middlename":"string", "lastname":"smith", "hometown":"string", "high_school":"string", "college":"string" }</pre>

ID	IT2
Description	<p>Edit Password:</p> <p>Takes TWO LOGIN_json. One with old password, another with the new password. Returns TRUE if completed successfully, FALSE if not.</p>
RESTFul Call	<pre>POST {"oldPassword": "monkey", "newPasword": "monkey99" }</pre>
Expected Response	<pre>{ "message": "true" }</pre> <p>OR</p>

	<pre>{ "message": "false" }</pre>
--	---------------------------------------

ID	IT3
Description	Deactivate: Takes LOGIN_json. Deactivates account and removes user session. Returns TRUE if completed successfully, FALSE if not.
RESTFul Call	POST
Expected Response	<pre>{ "message": "true" }</pre> <p>OR</p> <pre>{ "message": "false" }</pre>

ID	IT4
Description	Add Friend: Takes CONNECTION_json and sends notification to other user to accept connection. Returns TRUE if completed successfully, FALSE if not.
RESTFul Call	POST
Expected Response	<pre>{ "message": "true" }</pre>

	OR { "message": "false" }
--	--

ID	IT5
Description	Accept Friend: Takes CONNECTION_json (Only connection_id required) and initiates the friend connection. Returns TRUE if completed successfully, FALSE if not.
RESTFul Call	POST (connection_id: bussiness, personal, or school.
Expected Response	{ "message": "true" } OR { "message": "false" }

ID	IT6
Description	Remove Friend: Takes CONNECTION_json (only connection_id required) and deletes the connection. Other user sent notification of removal (Subject to change). Returns TRUE if completed succesfully, FALSE if not.

RESTFul Call	POST (connection_id: bussiness, personal, or school_
Expected Response	<pre>{ "message": "true" }</pre> <p>OR</p> <pre>{ "message": "false" }</pre>

ID	IT7
Description	Address Book: Returns array of FRIENDS_json. If optional parameter include_groups=true, then returns an additional GROUPNAMES_json.
RESTFul Call	GET or POST, (include_groups: true or false)
Expected Response	<pre>array of { "user_id":[INT, INT, INT], "name":["string", "string", "string"] //This will just be the full name of the user }</pre> <p>OR (with include groups = true)</p> <pre>array of { "user_id":[INT, INT, INT], "name":["string", "string", "string"] //This will just be the full name of the user } { "group_id":[INT, INT, INT], "name":["string", "string", "string"] //This will just be the name of the group }</pre>

ID	IT8
Description	Get Friend: Takes user_id of friend, returns full USER_json of that friend.
RESTFul Call	GET
Expected Response	<pre> { "userid":INT, "primary_email":"string", "gender":"char", "businessinfo": { "address": { "address1":"string", "address2":"string", "city":"string", "state":"string", "zip":"string" }, "phonenumber": { "number":"string", "extension":"string", "country_code":"string" }, "company":"string" }, "homeinfo": { "address": { "address1":"string", "address2":"string", "city":"string", "state":"string", "zip":"string" }, "phonenumber": { "number":"string", "extension":"string", "country_code":"string" }, "currentcity":"string" }, "name": { "firstname":"string", "middlename":"string", "lastname":"string" }, }</pre>

	<pre> "hometown":"string", "high_school":["string","string"], "college":["string","string"], "mobilenumber": { "number":"string", "extension":"string", "country_code":"string" }, "registered":LONG, "birthday":LONG, "socialmedia":[{ "socialmediaurl":"string" }, { "socialmediaurl":"string" }], "additionalemails":["string","string"], "additionalnumbers":[{ "number":"string", "extension":"string", "country_code":"string" }, { "number":"string", "extension":"string", "country_code":"string" }] } </pre>
--	--

ID	IT9
Description	Get Group: Takes group_id of group, returns full GROUP_json of that group.

RESTFul Call	GET
Expected Response	<pre>{ "group_id":INT //Null if creating a group "name":"string", "description":"string" }</pre>

ID	IT10
Description	Create Group: Takes GROUP_json and returns are group with name and description
RESTFul Call	<pre>POST {name: cool group description: cool description }</pre>
Expected Response	<pre>{ "group_id":INT //Null if creating a group "name":"cool group", "description":"cool description" }</pre>

ID	IT11
Description	Edit Group: Takes GROUP_json (The group_id is required) and updates the group information. Current user must be an admin. Return TRUE if completed successfully, FALSE if not.
RESTFul Call	<pre>POST {name: new name description: new description }</pre>
Expected Response	<pre>{ "message": "true" }</pre>

	OR <pre>{ "message": "false" }</pre>
--	---

ID	IT12
Description	Edit Group: Takes GROUP_json (The group_id is required) and updates the group information. Current user must be an admin. Return TRUE if completed successfully, FALSE if not.
RESTFul Call	POST {name: new name description: new description }
Expected Response	<pre>{ "message": "true" }</pre> OR <pre>{ "message": "false" }</pre>

ID	IT13
Description	Invite Users: Takes array of user_id's wishing to invite. Users will be sent a notification to accept the invitation. Returns TRUE if completed successfully, FALSE if not.
RESTFul Call	POST
	<pre>{ "message": "true" }</pre>

Expected Response	<pre>} OR { "message": "false" }</pre>
--------------------------	--

ID	IT14
Description	Join Group: Takes GROUPEMEMER_json (The group_id and user_id are required) and adds that the user to the group. Return TRUE if completed successfully, FALSE if not.
RESTFul Call	POST
Expected Response	<pre>{ "message": "true" } OR { "message": "false" }</pre>

ID	IT15
Description	Join Group: Takes GROUPEMEMER_json (The group_id and user_id are required) and adds that the user to the group. Return TRUE if completed successfully, FALSE if not.
RESTFul Call	POST
	{

Expected Response	<pre> "message": "true" } OR { "message": "false" } </pre>
--------------------------	--

ID	IT16
Description	Leave Group: Takes GROUPEMEMER_json (The group_id and user_id are required) and removes that the user to the group. Can be used by admin to forcibly remove users from a group. Return TRUE if completed successfully, FALSE if not.
RESTFul Call	POST
Expected Response	<pre> { "message": "true" } OR { "message": "false" } </pre>

ID	IT17
Description	Notifications: Returns an array of NOTIFICATIONS_json

RESTFul Call	GET
Expected Response	<pre>{ "message": "true" }</pre> <p>OR</p> <pre>{ "message": "false" }</pre>

Acceptance Testing

Web Application

Login/Signup Tests

ID	WLS1
Description	Creating an account by signing up
Setup	Go to Kloudbook.com
Instructions	<ol style="list-style-type: none"> 1. Kloudbook logo, login, video, and signup sections appear 2. Under the signup section on the homepage, enter the following <ul style="list-style-type: none"> • First Name: Kloudbook • Last Name: User • Email: kloudbookUser@gmail.com • Password: fakepassword • Date of Birth: January 6, 1980 • Gender: Male 3. Click Join Now 4. Enter the following <ul style="list-style-type: none"> • High School: Weston • College: UMass Amherst • Employer: Google • Current City: Palo Alto • Hometown: Weston

	5. Click Create Profile 6. Enter the following <ul style="list-style-type: none"> • Phone: 555-555-5555 • Address: UMass Amherst 7. Click Enter Contact Information 8. Click Upload or Take A Picture 9. Picture box on page should change 10. Click Done
--	---

ID	WLS2
Description	Logging in to web application after signing up - already have an account.
Setup	Create an account by signing up with username: kloudbookUser@gmail.com and password: 'fakepassword'
Instructions	1. Enter email address < kloudbookUser@gmail.com > and password <fakepassword> into email and password fields in the login section 2. Click Login

ID	WLS3
Description	Creating an account by signing up through Facebook
Setup	Go to Kloudbook.com
Instructions	1. Click Signup with Facebook
Expected Results	1. Kloudbook logo, login, video, and signup sections appear 2. Under the signup section on the homepage, the following should be populated <ul style="list-style-type: none"> • First Name: Kloudbook • Last Name: User • Email: kloudbookUser@gmail.com

	<ul style="list-style-type: none"> • Date of Birth: January 6, 1980 • Gender: Male <p>3. When Join Now is clicked, the route changes, and the following might be populated</p> <ul style="list-style-type: none"> • High School: Weston • College: UMass Amherst • Employer: Google • Current City: Palo Alto • Hometown: Weston <p>4. When Create Profile is clicked, the route changes, the following might be populated</p> <ul style="list-style-type: none"> • Phone: 555-555-5555 • Address: UMass Amherst <p>5. When Contact Information is clicked, the route changes, and the picture box on page should change to Facebook profile pic</p> <p>6. Click Done</p>
--	--

Contact Display and Interaction Tests

ID	WCDI1
Description	Viewing contacts that are connected to logged in user < kloudbookUser@gmail.com >
Setup	<p>1. User logs in</p> <p>2. Remove all contacts from a user's contact list</p> <p>3. Add the following users as connections to the user:</p> <ul style="list-style-type: none"> • Aguirre Gillespie • Armstrong Raymond • Browning Duncan
Instructions	1. Display the KloudContacts address book
Expected Results	<p>The following contacts are displayed, in this order, with both their picture and name shown:</p> <ul style="list-style-type: none"> • Aguirre Gillespie • Armstrong Raymond • Browning Duncan

ID	WCDI2
-----------	-------

Description	Selecting a user from the KloudContacts address book
Setup	<ol style="list-style-type: none"> 1. Remove all contacts from a user's contact list 2. Add user "Browning Duncan" to the database with the following information: <ul style="list-style-type: none"> • First Name: Browning • Last Name: Duncan • Picture: <Duncan.jpg> • Work: Ziore • University: dui University • High School: cupidatat High School • Cell: +1 (810) 504-2733 • Home: +1 (879) 556-3403 • Work: +1 (882) 536-2083 • Home Address: 835 Guider Avenue, Wells, New Jersey, 3827 • Work Address: 181 Gunninson Court, Rivera, Utah, 4105 3. Add Browning Duncan as connection to user <kloudbookUser@gmail.com>, with access to all contact information.
Instructions	<ol style="list-style-type: none"> 1. Display the KloudContacts address book 2. Click on the "Browning Duncan" contact.
Expected Results	<p>The following information should be displayed</p> <ul style="list-style-type: none"> • First Name: Browning • Last Name: Duncan • Profile Picture: <Duncan.jpg> • Work: Ziore • University: dui University • High School: cupidatat High School • Cell: +1 (810) 504-2733 • Home: +1 (879) 556-3403 • Work: +1 (882) 536-2083 • Home Address: 835 Guider Avenue, Wells, New Jersey, 3827 • Work Address: 181 Gunninson Court, Rivera, Utah, 4105

ID	WCD13
Description	Viewing only accessed information
Setup	<ol style="list-style-type: none"> 1. User logs in 2. Remove all contacts from a user's contact list 3. Add the following users as connections to the user: <ul style="list-style-type: none"> • Aguirre Gillespie

	<ul style="list-style-type: none"> • Armstrong Raymond • Browning Duncan 4. Browning Duncan only shares Business Information
Instructions	1. Click on Browning Duncan
Expected Results	1. The following appears on the screen. <ul style="list-style-type: none"> • Work: +1 (882) 536-2083 • Work Address: 181 Gunninson Court, Rivera, Utah, 4105

ID	WCDI4
Description	Delete a Kloudbook contact
Setup	1. Remove all contacts from a user's contact list 2. Add the following users as connections to the user: <ul style="list-style-type: none"> • Browning Duncan
Instructions	1. Click on contact Browning Duncan 2. Click on Delete Contact
Expected Results	1. When Delete is clicked, contact Browning Duncan is no longer in the address book 2. Address book is empty.

Add New Contacts Tests

ID	WANC1
Description	Request a connection from someone who is Kloudbook member
Setup	1. Remove all contacts from a user's contact list 2. Remove all contacts from Kloudbook database 3. Add the following users to the Kloudbook database: <ul style="list-style-type: none"> • Browning Duncan 4. Search for Kloudbook member, Browning Duncan
Instructions	1. Click Browning Duncan 2. Click Add 3. Selects to share all information with Browning Duncan
Expected Results	1. A request should be sent to Browning Duncan asking him for contact sharing access

	2. After confirmation, Browning Duncan should appear in KloudContacts address book.
--	---

Notification Tests

ID	WN1
Description	Send Notification
Setup	<ol style="list-style-type: none"> 1. Remove all contacts from a user's contact list 2. Remove all contacts from Kloudbook database 3. Add the following users to the Kloudbook database: <ul style="list-style-type: none"> • Browning Duncan 4. Search for Kloudbook member, Browning Duncan
Instructions	<ol style="list-style-type: none"> 1. Click Browning Duncan 2. Click Add 3. Selects to share all information with Browning Duncan
Expected Results	<ol style="list-style-type: none"> 1. A request should be sent to Browning Duncan asking him for contact sharing access 2. After confirmation, Browning Duncan should appear in KloudContacts address book.

ID	WN2
Description	Accept Notification
Setup	<ol style="list-style-type: none"> 1. Remove all contacts from a user's contact list 2. Remove all contacts from Kloudbook database 3. Add the following users to the Kloudbook database: <ul style="list-style-type: none"> • Browning Duncan 4. Browning Duncan requests user's contact information
Instructions	<ol style="list-style-type: none"> 1. Click Browning Duncan's request notification 2. Click Accept 3. Selects to share all information with Browning Duncan
Expected Results	<ol style="list-style-type: none"> 1. Browning Duncan should appear in KloudContacts address book: <ul style="list-style-type: none"> • First Name: Browning • Last Name: Duncan • Profile Picture: <Duncan.jpg>

ID	WN3
Description	Reject Notification
Setup	<ol style="list-style-type: none"> 1. Remove all contacts from a user's contact list 2. Remove all contacts from Kloudbook database 3. Add the following users to the Kloudbook database: <ul style="list-style-type: none"> • Browning Duncan 4. Browning Duncan requests user's contact information
Instructions	<ol style="list-style-type: none"> 1. Click Browning Duncan's request notification 2. Click Reject 3. Selects to share all information with Browning Duncan
Expected Results	1. KloudContacts should be empty

Search Tests

ID	WST1
Description	Search for Valid Entry
Setup	<ol style="list-style-type: none"> 1. Remove all contacts from Kloudbook database 2. Add the following users to the Kloudbook database: <ul style="list-style-type: none"> • Browning Duncan 3. Add the following group to the Kloudbook database: <ul style="list-style-type: none"> • Duncan Yo-Yo
Instructions	<ol style="list-style-type: none"> 1. Click Search field 2. Enter "Duncan"
Expected Results	<p>The following results are displayed:</p> <ul style="list-style-type: none"> • Duncan Yo-Yo • Browning Duncan

ID	WST2
Description	Search for Invalid Entry
Setup	<ol style="list-style-type: none"> 1. Remove all contacts from Kloudbook database 2. Add the following users to the Kloudbook database: <ul style="list-style-type: none"> • Browning Duncan 3. Add the following group to the Kloudbook database: <ul style="list-style-type: none"> • Duncan Yo-Yo

Instructions	1. Click Search field 2. Enter "Dunkin"
Expected Results	The following result should be displayed: "Cannot find entry Emily Smith"

ID	WST3
Description	Search by a public contact information
Setup	1. Remove all contacts from Kloudbook database 2. Add the following users to the Kloudbook database: <ul style="list-style-type: none"> Browning Duncan: Hometown: Amherst 3. Add the following group to the Kloudbook database: <ul style="list-style-type: none"> Duncan Yo-Yo Hometown: Amherst
Instructions	1. Click Search field 2. Enter "Amherst"
Expected Results	The following results should be displayed: <ul style="list-style-type: none"> Duncan Yo-Yo Browning Duncan

Settings Tests

ID	WS1
Description	Logout of Kloudbook.com
Setup	1. Login to Kloudbook.com
Instructions	1. Click on Logout in Kloudbook profile navigation bar
Expected Results	1. Route should change to Kloudbook.com 2. Homepage navigation bar should appear with login, video, signup sections appearing

ID	WS2
Description	Change password
Setup	1. Login to Kloudbook.com

Instructions	<ol style="list-style-type: none"> 1. Click on settings in Kloudbook profile navigation bar 2. Enter Current password in password field 3. Enter new password in new password field, "newfake" 4. Logout
Expected Results	<ol style="list-style-type: none"> 1. Route should change to Kloudbook.com 2. User should be able to log in with new password, "newfake" and email address, <kloudbookUser@gmail.com>

ID	WS3
Description	Deactivate Account
Setup	1. Login to Kloudbook.com
Instructions	<ol style="list-style-type: none"> 1. Click on settings in Kloudbook profile navigation bar 2. Click Deactivate Account
Expected Results	<ol style="list-style-type: none"> 1. Route should change to Kloudbook.com 2. User should login 3. User should see: "This account has been deactivated"

Group Tests

ID	WG1
Description	Creating a group
Setup	<ol style="list-style-type: none"> 1. Remove all groups from database. 2. Click the groups tab in Kloudbook profile navigation bar 3. Click Create Group
Instructions	<ol style="list-style-type: none"> 1. Enter the following information: <ul style="list-style-type: none"> • Group Name: Red Sox Nation • Description: A group for Red Sox fans • Profile Picture: <Red Sox.jpg>
Expected Results	<ol style="list-style-type: none"> 1. The following groups appear on the screen. <ul style="list-style-type: none"> • Red Sox Nation

ID	WG2
Description	Adding Kloudbook member to group

Setup	<ol style="list-style-type: none"> 1. Remove all groups and users from database. 2. Click the groups tab in Kloudbook profile navigation bar 3. Click Create Group 4. Add the following users to the Kloudbook database: <ul style="list-style-type: none"> • Browning Duncan
